ACKNOWLEDGEMENTS

To the Truth upholders and whistle-blowers of the world - together we make 'A Better World'.

CHAPTERS

REVOLUTIONARY FASHION

Every Barbwire Noose item worn by me is gifted to opportunity stores or upcycled (if in good quality). A Discount to recycle old brand garments to encourage the public to engage consciously in sustainable fashion pathways is an initiative created by Barbwire Noose. It involves encouraging purchasers to 'Get Involved' with this action by rewarding purchasers for returning quality Barbwire Noose purchases after wearing with a discount.

QUANTUM PHYSICS

'Quantum mechanics, science dealing with the behaviour of matter and light on the atomic and subatomic scale. It attempts to describe and account for the properties of molecules and atoms and their constituents—electrons, protons, neutrons, and other more esoteric particles such as quarks and gluons. These properties include the interactions of the particles with one another and with electromagnetic radiation (i.e., light, X-rays, and gamma rays).' - Britannica
Quantum physics is the study of matter and energy at the most fundamental level. It aims to uncover the properties and behaviours of the very building blocks of nature.

I believe we are an infinitely greater metaphysical immortality. I believe quantum physics can prove this theoretical phenomenon of life and time as materialised energy.

POWER vs PEOPLE

"People Power" is a political term denoting the populist driving force of any social movement which invokes the authority of grassroots opinion and willpower, usually in opposition to that of conventionally organised corporate or political forces.

PIECES OF ME

Things you may know or may not know about me.

HISTORY

"History repeats itself, first as tragedy, second as farce." Karl Marx; German philosopher and economist (DOB 5MAY1818 – 14MAR1883)

MUSIC

Without music, life would be a mistake.

POETRY

Poems by yours truly.

JUSTICE

"Certainty is not overruled by doubt".

TRUTH VS LIES

Be careful what lies you tell about me, some dick heads maybe corrected in these books. Defamation is costly.

FREEMASONRY

"Hell is Truth seen too late." - Thomas Hobbes, Leviathan

OPINIONS AND RANDOM SH*T

Opinions are like assholes, everyone's got one - these are mine. Plus, Anything but Ordinary random sh*t.

INTRODUCTION:

When the most Honest thing you can ever say is the Oddest thing you will ever say... “I wouldn’t change a day or have it any other way.” – Marcia BNoose (Anita Hobbs)

The content of this particular book randomly fills in some blanks about my life thus far. Enjoy x

Chapter One

‘Revolutionary Fashion’

Every Barbwire Noose item worn by me is gifted to opportunity stores or upcycled (if in good quality). A Discount to recycle old brand garments to encourage the public to engage consciously in sustainable fashion pathways is an initiative created by Barbwire Noose. It involves encouraging purchasers to ‘Get Involved’ with this action by rewarding purchasers for returning quality Barbwire Noose threads (clothing) back to the brand after wearing with a discount on their next Barbwire Noose purchase.

If you have not read ‘The Story Behind the Brand BARBWIRE NOOSE’ – my brand, you may not be clued up regarding what it is all about.

The slogan: Fear Is the Root of All Weakness represents the ‘fear’ that holds us all back. Holds us to oppression, slavery, dictators, in life in general.

The words ‘[Barbwire Noose](#)’ stem from the music band *Soundgarden* and their song ‘*Pretty Noose*’ – the song singing the line “*And I don’t like what you got me hanging from*” relevant at the time I registered the brands trademarks as the SA Labor Government had

put me on six months full-time paid leave to oppress my reporting against criminal negligence I witnessed in Sharley House, located on Sharley Avenue, Mt Gambier, Sth AUS.

The crimes that I reported which were committed against these disabled persons are horrific. Neglect, sexual abuse and cognitive abuses. As a nineteen-year-old it was hard to witness, causing me much emotional distress which is what drove the government to put me on paid leave. Upon returning to work, after applying to IP Australia for my trademarks, the reprisal for my reporting was to be put into part-time employment providing different care at more able homes. Stopping me from reporting on the behalf of the persons of Sharley House all together. Disabled peers with the ability of babies – noncognitive, retarded, unable to communicate – these victims could not speak, write or sign – they could not fight nor save their own lives. Intellectual Disability Services Council (1976 - 2006) known as IDSC rebranded to Disability SA and the reports were archived, leaving the abuse unaddressed and allowing it to continue.

Paedophile Mike Rann (Born 5JAN1953) was the Premier of Sth AUS at this time leading the SA Labor Government and Jay Weatherill (DOB3APR1964) was the disability minister who furthered his career into becoming Premier of SA leading SA Labor. Both men accused of paedophilia in the state of Sth AUS – both men became Premier of Sth AUS like broadly known in Australia paedophile Premier Don Dunstan (MP Labor DOB21SEP1926 – 6FEB1999).

It took years for my trademarks to be approved via IP Australia. The government full well knowing if brand BARBWIRE NOOSE was ever to be successful that their cover up would be exposed. During the Disability Royal Commission held from 2019 – 2023 across Australia, this is exactly what happened. Despite the government, police forces involved in paedophilia and other community members involved in paedophilia working extremely hard to tarnish, disrupt and ruin me and Barbwire Noose financially the brand has succeeded and the agenda to push me to the refuge of suicide has not prevailed.

Barbwire Noose is revolutionary fashion. Starting with this Human Rights movement, the brand has strived forward with an established streetwear line, a high fashion couture line, entered the sustainable fashion platform with organic material alternatives in the street wear since go and has had influence in both the Humanitarian and Sustainability sectors of fashion since 2008 when I established the website online.

Brand Barbwire Noose is more than a brand - more than clothes, wearing the label is a statement. An empowering movement, built from a struggle for change against government authority in the disabilities sector and beyond, to create positive change at a governance level. Empowering lessons of civil disobedience – ‘Do NOT Conform’ moments.

Extract from 'The Story Behind the Brand

[BARBWIRE NOOSE](#): *To tell The Story Behind the Brand BARBWIRE NOOSE® is to paint a picture of what led me to such frustrated emotions that I developed a brand of empowerment and a brand name like Barbwire Noose®. The literature you read, hopefully immersing, aims to paint the picture of my life's experiences that tells The Story Behind the Brand. The label is an extension of myself, my life, my **One Love**. It represents so many things, the trials and the enduring atrocities of government sector corruption, a movement towards 'A Better World'. A movement driven by my passion for justice for the clients in the disabilities sector, a subconscious fight for myself and Justice for All. I am so passionately infuriated by the lack of human rights our voiceless and most vulnerable persons had in our society. This outspoken, unconventional, Do NOT Conform Human Rights Activism is brand Barbwire Noose®. Empowerment of 'A Better World' – Activism Defending Human Rights.*

The Oxford dictionary defines revolutionary as:

revolutionary /ˌrevəˈl(j)uːʃən(ə)ri/ adjective

1. involving or causing a complete or dramatic change. "a revolutionary new drug" (Similar: original, unconventional, innovative, ingenious)
2. engaged in or promoting political revolution. "the revolutionary army" (Similar: rebellious, rebel); a person who advocates or engages in political revolution.

The fashion industry is huge – we all wear clothes. Its impact and influence should be more positive than negative. Fashion has not only been a great platform for me to be who I am - exuberant, unique, outspoken, out there but it has been a great platform to make positive change and connect with people. Everyday people because we the people change the world. On both a daily level and governance level. What we invest our time and money in matters. The choices we make to dispose of clothes has a major impact on this world. It takes little effort to donate unwanted clothing, that is wearable for someone else to your local op-shop. It is not hard to use those worn-out clothing items as cloths and rags before disposing of them – saving you money on cloths and paper towel. It costs nothing to think and think about our planet in the actions we take each day. Thoughtfulness and kindness, thinking sustainably and acting accordingly makes a difference in a world saturated with products to use, consume, wear – things to discard, neglect and abuse. Be kind to our planet, be kind to each other. The most revolutionary act in this world is kindness. Never underestimate the power of kindness and love. The most powerful force on this earth is love. Love this earth, love your neighbours – be kind, be revolutionary.

Chapter Two

‘Quantum Physics’

'Quantum mechanics, science dealing with the behaviour of matter and light on the atomic and subatomic scale. It attempts to describe and account for the properties of molecules and atoms and their constituents—electrons, protons, neutrons, and other more esoteric particles such as quarks and gluons. These properties include the interactions of the particles with one another and with electromagnetic radiation (i.e., light, X-rays, and gamma rays).' - Britannica

Quantum physics is the study of matter and energy at the most fundamental level. It aims to uncover the properties and behaviours of the very building blocks of nature.

I believe we are an infinitely greater metaphysical immortality. I believe quantum physics can prove this theoretical phenomenon of life and time as materialised energy.

It is proposed that there are predominately six principles as the fundamental principles of quantum

mechanics: principle of space and time, Galilean principle of relativity, Hamilton's principle, wave principle, probability principle, and principle of indestructibility and increatability of particles.

According to the principle of Galilean relativity, if Newton's laws are true in any reference frame, they are also true in any other frame moving at constant velocity with respect to the first one. Newton's laws of motion are valid only in a coordinate system at rest with respect to the "fixed" stars. Such a system is known as a Newtonian, or inertial reference, frame. The laws are also valid in any set of rigid axes moving with constant velocity and without rotation relative to the inertial frame; this concept is known as the principle of Newtonian or Galilean relativity. A coordinate system attached to the Earth is not an inertial reference frame because the Earth rotates and is accelerated with respect to the Sun. Although the solutions to most engineering problems can be obtained to a satisfactory degree of accuracy by assuming that an Earth-based reference frame is an inertial one, there are some applications in which the rotation of the Earth cannot be neglected; among these is the operation of a gyroscopic compass.

Hamilton's Principle or the Principle of Least Action, is a cornerstone of classical mechanics that states the actual path of a physical system's transition between two states is the one that minimises the difference between kinetic and potential energies.

Another explanation is to delve into the conversation of mass-energy - The idea of [energy](#) as a real [constituent](#) of matter has, however, become too deeply rooted to be abandoned lightly, and most physicists find it useful to continue treating electric and magnetic fields as more than mathematical constructions. Far from being empty, free space is viewed as a storehouse for energy, with \mathbf{E} and \mathbf{B} providing not only an inventory but expressions for its movements as represented by the momentum carried in the fields. Wherever \mathbf{E} and \mathbf{B} are both present, and not parallel, there is a flux of energy, amounting to $\mathbf{E} \wedge \mathbf{B}/\mu_0$, crossing unit area and moving in a direction normal to the plane defined by \mathbf{E} and \mathbf{B} . This energy in [motion confers](#) momentum on the field, $\mathbf{E} \wedge \mathbf{B}/\mu_0 c$, per unit volume as if there were mass associated with the field energy. Indeed, the English physicist J.J. Thomson showed in 1881 that the energy stored in the fields around a moving charged particle varies as the square of the velocity as if there were extra [mass](#) carried with the [electric field](#) around the particle. Herein lie the seeds of the general mass–energy relationship developed by Einstein in his [special theory](#) of relativity; $E = mc^2$ expresses the association of mass with every form of energy. Neither of two separate conservation laws, that of energy and that of [mass](#) (the latter particularly the outcome of countless experiments involving chemical change), is in this view perfectly true, but together they [constitute](#) a [single conservation law](#), which may be expressed in two equivalent ways—conservation of mass, if to the total

energy E is ascribed mass E/c^2 , or [conservation of energy](#), if to each mass m is ascribed energy mc^2 . The delicate measurements by Eötvös and later workers (*see above*) show that the gravitational forces acting on a body do not distinguish different types of mass, whether [intrinsic](#) to the fundamental particles or resulting from their kinetic and potential energies. For all its apparently artificial origins, then, this conservation law enshrines a very deep truth about the material [universe](#), one that has not yet been fully explored.

Wave Principle also known as the principle of superposition, in wave motion, the principle that when two or more waves overlap in space, the resulting disturbance is equal to the algebraic sum of the individual disturbances. This principle holds for many different kinds of waves, such as waves in water, sound waves, and electromagnetic waves.

Because of the principle of superposition, the old saying that no two things can occupy the same space at the same time does not apply to waves. Indeed, an infinite number of waves can occupy the same space at the same time. Furthermore, they do this without affecting one another, so that each wave retains its own character independent of how many other waves are present at the same point and time. A radio or television antenna can receive the signal of any single frequency to which it is tuned, regardless of the existence of any others. Likewise, the sound waves of two people talking may cross each other, but the sound of each

voice is unaffected by the waves' having been simultaneously at the same point.

Probability theory, a branch of [mathematics](#) concerned with the [analysis](#) of random phenomena. The outcome of a random event cannot be determined before it occurs, but it may be any one of several possible outcomes. The actual outcome is considered to be determined by [chance](#).

Indestructability (increatibility of particles) Theory
Theorists have sought to determine what makes up matter since the age of the Greeks. At the beginning of the 19th century, the English scientist John Dalton proposed an atomic theory that became the basis for the study of chemistry. His theory contained five main propositions:

1. All matter is comprised of tiny, definite particles called atoms.
2. Atoms are indivisible and indestructible.
3. All atoms of a particular element share identical properties, including weight.
4. Atoms of different elements contain different mass.
5. Atoms of different elements combine in fixed whole-number ratios when forming compounds.

Most of this information was sourced from Britannica, so if your interested in more quantum physics I suggest you start there. The links will guide you to understanding the ideas and ideals proposed by theories and in turn you will start to understand the universe,

time prints, your connection to this universe and that all energy has impact.

Each individual on this planet is special – truly dynamic in their energy and impact. Some of us are more acute – yes (more intellectual), some of us are older souls and that existence gives us knowledge we can tap into. That stated the concepts of time travel, not as we know it in the movies ‘Back to the future’, are viable scientific concepts. Our connection to our universe and the purposes this connection poses are real. And ancient history symbolism holds many of the keys to us understanding quantum physics further as will as the study of these principles.

Chapter Three

‘People VS Power’

"People Power" is a political term denoting the populist driving force of any social movement which invokes the authority of grassroots opinion and willpower, usually in opposition to that of conventionally organised corporate or political forces.

'The world is a dangerous place, not because of those who do evil, but because of those who look on and do nothing.' - Albert Einstein

We all know it is fact that People outnumber Power. Yet, power is always mobile and the People are not. This is where tyranny, dictatorships, totalitarian agendas overcome democracy. Democracy involves People, totalitarianism involves Power.

The People will always have numbers on their side, and if they remember that they need to be active every day in those numbers, that is when Power is overpowered.

One voice can spark a crowd against power, yet it is the crowd that has the power. One voice can be silenced in ignorance and oppression, the Mob cannot be silenced so easily. Alexei Navalny (DOB4JUN1976 – 16FEB2024) is a champion of the People and knew these facts too well. One man can be stopped, the mob cannot. Quoting the man – The LEGEND; Alexei Navalny (DOB4JUN1976 – 16FEB2024): “If they would kill me it changes nothing” - "It's not about me," he said. "It's about people who I represent or [am] trying to represent."

Alexei Navalny (DOB4JUN1976 – 16FEB2024) said in the Daniel Rohr film. "Listen, I've got something very obvious to tell you. You're not allowed to give up. If they decide to kill me, it means that we are incredibly strong. We need to utilise this power to not give up, to remember we are a huge power that is being oppressed by these bad dudes. We don't realise how strong we actually are. The only thing necessary for the triumph of evil, is for good people to do nothing. So don't be inactive.” There is nothing truer than these words.

I am Australia’s most infamous whistle blower. Loved by a lot of my peers (as well as loathed by paedophiles which riddle the Australian population at this time) yet hated by many men in government and many in the police force. Sex offenders mainly, I’m not at all bothered that they hate me. That stated the destruction I have seen as a whistle-blower opposing elite creeps and politicians has shown me the power of oppression far to

often. I know the use of character assassination and ignorance far too well.

Power is not always about taking you out, like Vladimir Putin (DOB7OCT1952) did to Alexei Navalny (DOB4JUN1976 – 16FEB2024). It is a mission of keeping you down, holding your energy back.

Prolonging it profuse return, which those involved in esoteric teachings know well. The power of one's destiny is immense, in both the good and the evil of this earth. A country is always led best by an honest, accountable leader – this is true of any leadership. Yet, it is not often that the brave and honest – the rare make it into power, leading a country, working for the people.

The story of Nelson Mandela (born July 18, 1918, Mvezo, South Africa—died December 5, 2013, Johannesburg) is a prime example of 'People Power'. *'A Black nationalist and the first Black president of South Africa (1994–99). His negotiations in the early 1990s with South African Pres. F.W. de Klerk helped end the country's apartheid system of racial segregation and ushered in a peaceful transition to majority rule. Mandela and de Klerk were jointly awarded the Nobel Prize for Peace in 1993 for their efforts.'*

Early life and work:

Nelson Mandela was the son of Chief Henry Mandela of the Madiba clan of the Xhosa-speaking Tembu people. After his father's death, young Nelson was raised by Jongintaba, the regent of the Tembu. Nelson renounced his claim to the chieftainship to become a

lawyer. He attended South African Native College (later the University of Fort Hare) and studied law at the University of the Witwatersrand; he later passed the qualification exam to become a lawyer. In 1944 he joined the African National Congress (ANC), a Black-liberation group, and became a leader of its Youth League. That same year he met and married Evelyn Ntoko Mase. Mandela subsequently held other ANC leadership positions, through which he helped revitalize the organization and oppose the apartheid policies of the ruling National Party.

From 1964 to 1982 Mandela was incarcerated at Robben Island Prison, off Cape Town. He was subsequently kept at the maximum-security Pollsmoor Prison until 1988, when, after being treated for tuberculosis, he was transferred to Victor Verster Prison near Paarl. The South African government periodically made conditional offers of freedom to Mandela, most notably in 1976, on the condition that he recognize the newly independent—and highly controversial—status of the Transkei Bantustan and agree to reside there. An offer made in 1985 required that he renounce the use of violence. Mandela refused both offers, the second on the premise that only free men were able to engage in such negotiations and, as a prisoner, he was not a free man.

Throughout his incarceration, Mandela retained wide support among South Africa's Black population, and his imprisonment became a cause célèbre among the international community that condemned apartheid. As South Africa's political situation deteriorated after

1983, and particularly after 1988, he was engaged by ministers of Pres. P.W. Botha's government in exploratory negotiations; he met with Botha's successor, de Klerk, in December 1989.'

Adversity does not hold a great leader back. It makes a great leader. Alexei Navalny (DOB4JUN1976 – 16FEB2024) would have been an Icon leader of Russia. Vladimir Putin (DOB7OCT1952) is a dictator who feared this - feared Alexei Navalny (DOB4JUN1976 – 16FEB2024), yet Alexei Navalny never feared Vladimir Putin (DOB7OCT1952). He lived with pride and conviction and died with the love and respect of his people. Vladimir Putin (DOB7OCT1952) will not die with the same respect and dedication given to his opposition, and although Alexei Navalny (DOB4JUN1976 – 16FEB2024) never made it to power, in history (in his next life) his energy has had a greater impact on this world. Not only in his own country in Russia but around the Globe.

The mark you leave behind matters, the energy you create, the time you dedicate to others – People Power will always outweigh Power. When it comes to People VS Power, it is the one who gives up that loses. Never give up. There may not be a second chance in life at times, but every day – big or small you always have the power to do good. The People as long as they always fight for their power have – The Power.

Chapter Four

‘Pieces of Me’

Things you may know or may not know about me.

I am a strong believer in the thought that we exist in the image of God – not necessarily ‘God’ as Christianity teaches us with Jesus, but in the god of the universe. The great architect of the universe, that which created us – energy, the big bang theory; atoms and molecules which make up all life.

My favourite meat is Lamb! I love lamb SO much and never say no to a good lamb roast.

Eggs are my go-to meal. A boiled egg or an egg zapped in the microwave (with ginger and garlic if it’s there) with some salt and pepper is my go-to lazy meal.

I wear my German Shepherd dog around my neck. Rossi is my best friend. I would have both my dogs Kuta

(Kelpie, Cavalier King Charles Spaniel, Jack Russel cross) around my neck but my parents put my dog down without my permission. Which I will never forgive them for. Both of my dogs (the first of my own) lived to the ripe old age of approximately fourteen, well loved and I miss them very much.

I feel deeply connected to my grandparent Joseph Stanley Hobbs and Mavis Unger, both of which were robbed from me I feel in their passing.

In 2024 I met a legend of Sth Australia called Max, who knew my poppa Joseph Stanley Hobbs (aka Stan). They were friends in Port Adelaide Sth Australia. Max and I got along well from go. It was very refreshing to hear his South Australian National Football League (SANFL) chimney painting stories (also known as the Westend Chimney) to which Max painted the football colours of the SANFL on this icon for years. Lucky enough to give his son the opportunity to paint this iconic monument of Sth Australia which held great significance over decades regarding the SANFL. My poppa 'Stan' as he was known playing for Port Adelaide is featured on the club's history board and in photos kept in Alberton, Sth AUS. The home of Australian Football League (AFL) team Port Adelaide – a derivative of the SANFL team. Poppa debuted into the SANFL in 1947 and played 47 games.

When I was a teenager, I used to illustrate horses, I had my own horses from around ten years old through to my thirties when my parents gave my horse away – I no longer rode her. She lived at my parents farm free in the paddock. I was quite good at drawing horses (if I do say so myself) yet people, not so much. I tried numerous times to draw my brother, I struggled to draw the face with everything but the eyes looking good. The eyes not looking to flash made the picture evidently look drab.

My family (my dad's side) have seafood at Christmas – every year as my family are Port Adelaide locals, the beautiful beach of Semaphore, Sth AUS. To this day I still do not shell my own prawns and if I am left to do it myself, even though I love prawns – my favourite seafood it is highly likely they will go to waste. I'm not very good at shelling seafood and the action literally puts me off eating them.

I am obsessed with shoes! I love shoes and can never have enough shoes. Mainly high heels, I love my boots and a few nice pairs of sneakers. 'Sketchers' are my favourite sneaker brand. My shoe size is small – five or six and I can buy children's shoes in sizes thirteenish too.

My favourite perfume is 'Angel' by [Mugler](#) described by the brand as Angel Eau De Parfum spray as a tribute to the enigmatic, and seductive power of femininity. The complex olfactory facets of Angel inspire confidence and grace.

Australia will always be home. No matter where I go, despite my Indian heritage background, no matter who I marry (if I actually say Yes to anyone else other than Travis Paul Enmon Jr (DOB 16 JAN 1989), the great country of Australia is me.

The eyes I believe never lie, your soul pours out your eyes and radiates your deepest energy. Truly the window to your soul.

I have always wanted to live until I was one hundred. God knows why because I hate ageing, have nightmares most nights and am completely traumatised by creeps, numerous cover ups and Catholics.

I deeply believe in ghosts. Hoping that my soul haunts all that have tormented it for the rest of time. That is my gift to those bad people upon dying.

Vitamin 'C' I think is the most important vitamin to take. Its strength for your immune system and the properties it holds to keep you and your body young are Amazing.

The greatest joys I have had in life have come from giving my time. Time spent with children (over fifteen years aquatics teaching) and volunteering. Time to listen, time to help, time to give, care, walk, talk, stare at the moon, see new places, drive, listen to music, to be still. Time is the most precious thing in life. Cherish every moment.

There are a few television shows I will watch for life, no matter what my age I love Friends, The Nanny, Daria, Merlin, and the Looney Tunes. I understand these are like mainly parental guidance shows – I don't care.

I am obsessed with gold and diamonds. This is what I waste my spare money on – jewellery. When I won representing myself against a major police tort – acknowledged by the judge as institutional harassment. A case that my lawyer pulled out of. I bought myself a gold diamond channel ring which I nearly never take off. It is stacked under my two tiffany and co rings. I will work for jewellery and shoes.

Chapter Five

‘History’

"History repeats itself, first as tragedy, second as farce." Karl Marx; German philosopher and economist (DOB 5MAY1818 – 14MAR1883)

Donald John Trump (DOB14JUN1946) called for the construction of a border wall. Saying that, if elected, he would "build the wall and make Mexico pay for it". Donald John Trump (DOB14JUN1946) wanted to build a wall to stop illegal immigrant invasion. The Mexico–United States border extends a whopping 3,145 kilometres (1,954 miles). To put that in perspective for Australian's it is approximately 3860 kilometres from Australia's most northerly point to its most southerly point in Tasmania. Can this be done and will it work. Well, history tells us the Great Wall of China helped defend the Ming empire against the Manchu invasions that began around 1600.

The Great Wall of China is a barrier fortification in northern China running west-to-east 13,171 miles (21,196 km) from the Jiayuguan Pass (in the west) to

the Hushan Mountains in Liaoning Province in the east, ending at the Bohai Gulf. It crosses eleven provinces/municipalities (or ten, according to some authorities) and two autonomous regions (Inner Mongolia and Ningxia).

Construction of the wall began in the Qin Dynasty (221-206 BCE) under the First Emperor Shi Huangdi (r. 221-210 BCE) and continued over hundreds of years throughout many different dynasties. The Great Wall in the present day is almost completely the work of the Ming Dynasty (1368-1664 CE) who added the distinctive watchtowers and expanded the length and width of the wall. The now-famous national monument fell into decay following the Ming Dynasty, when the Qing Dynasty (1644-1912 CE) took power and expanded the border of China northwards, making the wall obsolete. Restoration and preservation efforts only seriously began in the 1980's CE, and the wall was declared a UNESCO World Heritage Site in 1987 CE.

The Original Great Wall of China:

During the time known as The Warring States Period (c. 481-221 BCE), the different regions of China fought for control of the country during the collapse of the Eastern Zhou Dynasty (771-256 BCE). One state emerged victorious from this struggle: the state of Qin which is pronounced 'chin' and gives China its name. The general who led Qin to victory was King Ying Zheng who took the name 'Qin Shi Huangdi' (First Emperor) after conquering the other states.

Shi Huangdi ordered construction of the Great Wall to consolidate his empire and protect it against invasion. The seven warring states each had walls along their border for defense which Shi Huangdi destroyed after he took power. As a sign that all of China was now one, the emperor decreed a great wall would be built along the northern border to defend against the mounted warriors of the nomadic Xiongnu of Mongolia; there would be no more walls marking boundaries between separate states in China because there would no longer be any separate states.

His wall ran along a line further to the north than the present one, marking what was then the border between China and the Mongolian plains. The wall was constructed by unwilling conscripts and convicts who were sent north under guard from all over China for the purpose. Shi Huangdi was not a benevolent ruler and was more interested in his own grandeur than the good of his people. His wall was not regarded by the Chinese people under the Qin Dynasty as a symbol of national pride or unity but as a place where people were sent to labour for the emperor until they died.

The Ming Dynasty Wall (The Great Wall of China):
The present wall, whose image is so well known, is not Shi Huangdi's wall from c. 221 BCE. There is actually very little of the original wall left today. When the Qin Dynasty fell in 206 BCE, the country split into the civil war known as the Chu-Han Contention (206-202 BCE), fought between the generals Xiang-Yu of Chu (l. 232-202 BCE) and Liu-Bang of Han (l. c. 256-195 BCE),

the two leaders who had emerged as the most powerful of those who had helped topple the Qin Dynasty. When Liu-Bang defeated Xiang-Yu in 202 BCE at the Battle of Gaixia, he became the First Emperor of the Han Dynasty (202 BCE-220 CE) and continued construction of the wall as a means of defense. He was also the first emperor to use the wall as a means of regulating trade north along what would eventually become known as the Silk Routes (better known as The Silk Road) which the later Han Dynasty emperor Wu Ti (r. 141-87 BCE) expanded and opened for trade between China and Europe in 130 BCE.

The following dynasties all made their own contributions and repairs to the wall until the Ming Dynasty initiated a massive building project to protect the country from invading nomads from Mongolia, the very same incentive that had played a part in Shi Huangdi's original vision. This similarity in purpose may explain the belief that the present wall dates from the Qin Dynasty. The Ming built the wall featuring over 25,000 massive watchtowers and ranging in height from 16-26 feet (5-8 m), 20 feet across the bottom (6 m) and 16 feet across the top (5 m).

The Liaoning Wall:

In addition to creating the massive wall, the Ming Dynasty also enclosed their most important agricultural center, Liaoning Province, behind a walled fortification known as the Liaoning Wall (also known as the Liaodong Wall). This wall has been a source of

controversy between China and North Korea since 2009 CE when the Chinese government claimed they had only recently discovered portions of the Great Wall close to the border with North Korea by the Hushan Mountains.

UNESCO Archives.

Chapter Six

‘Music’

Without music, life would be a mistake.

Music is my go-to way of chilling. I feel like a broken record saying this. The band ‘TOOL’ is Epic – I have said this before. Jewel is my Favorite moody, chill singer and I often bang out the band ‘Pearl Jam’ on long road trips.

The word Music is defined as a noun: vocal, instrumental, or mechanical sounds having rhythm, melody, or harmony: the science or art of ordering tones or sounds in succession, in combination, and in temporal relationships to produce a composition having unity and continuity: a distinctive type or category of music.

My play lists are on google music and I don’t have pandora or shazam or any of that shit. On my iPad I have iTunes because I have too really and out of the hundreds of songs I have on my phone, I’m often listening to a few dozen like most of us claim.

Live music is my favorite way of enjoying any type of music and that's probably the only way you will convince me to sit down and listen to a country tune.

I have played a little bit of guitar, drums, piano and the recorder. I loved the recorder – no joke, 'Hot Cross Buns' all the way! If you don't know it, don't worry – I googled the lyrics for you:

Hot cross buns

Hot cross buns

One a penny

Two a penny

Hot cross buns

Give them to your daughters

Give them to your sons

One a penny

Two a penny

Hot cross buns

Hot cross buns

Hot cross buns

One a penny

Two a penny

Hot cross buns

Give them to your daughters

Give them to your sons

One a penny

Two a penny

Hot cross buns

These are sure hot

^ Hot as hey! Now that those lines are stuck in your head lets talk about the song that never ends, It just goes 'round and 'round, my friends
Some people started singing it
Not knowing what it was
And we continue singing it forever just because
This is the song that never ends
It just goes 'round and 'round, my friends
Some people started singing it
Not knowing what it was
And we continue singing it forever just because....
Released by puppeteer Shari Lewis titled Lamb Chop's Sing-Along, Play-Along, in a 1988 home video – you want to kill her right, too late she's already dead! R.I.P (Shari Lewis born Phyllis Naomi Hurwitz; January 17, 1933 – August 2, 1998) you legend!

Back to seriously discussing music – Bob Marley, what a legend. A Jamaican singer the man made reggae. Bob Marley was born on February 6, 1945 and sadly died of a melanoma in 1981 when he was only 36 years old. A tragic story that he attributed to a soccer injury, when a dark spot appeared under his toenail Marley did not realise it was a melanoma – thinking the spot was from his love for the ball game.

The 27 club, deaths at the age of 27 as it is referred, has taken out a list of musicians. Many of these deaths attributed to the notorious use of drugs that plague the music industry. Creativity has its price; the use of drugs can be enlightening, confidence building and enhance

creativity yet for many the use has ended the lives of some of our greatest musicians early, such as Kurt Cobain (Nirvana), Amy Winehouse, Janis Joplin, Jim Morrison (The Doors), Jimi Hendrix, just to name a few.

Slipknot are a nine piece band I fell in love with listening to the album 'Iowa' in 2002. They have a unique sound, Corey Taylor having a spectacular vocal range. The band rose to fame following the release of their eponymous debut album 'Iowa' in 1999. I am yet to attend Knotfest, honestly kind of stoked there are still some metal bands I'm trothing to see and this festival brings them together! I have seen both Slipknot and Stonesour which was SiC! I have a Stonesour guitar pick from the bass player which is pretty groovy.

From guitar picks to drumsticks, to the after party at the Big Day Out, to growing up around pub gig live music stories to boyfriends that have been musos, my life has always been complimented by noise and looking into the future this does not look like changing much. Developing my own sounds as wee speak and having a stash of poetry this hobby could be a one hit wonder one day! No guarantees, the one thing that is guaranteed with my own music producing is that you will hear it on the Runways wear Barbwire Noose is showcased and I am so excited to be creating music that backs and even represents my Human Rights brand!

Chapter Seven 'Poetry'

Poems by yours truly.

SUMMARY 2019

Pure Disposition.

Demise.

I see you now with hollow eyes.

It cries.

The nothingness lies in you and I.

No light.

Nothing now so bright as the nothingness of this plight.

Blind.

I find everything.

To find nothing.

In you.

The nothing you have given to me.

Leaving an empty, hollow, unfillable void of turmoil.

Broken.

Bruised.

Bemused by pain.

Abused.

A walking pillar of abuse.

With only financial reign.

Empty gain and fame.

Amused by the unspoken.
Baffled with clarity.
We rise to die.
Fall to live.
Without life.
Love.
But an empty word that hope gives us to survive bad
times.
Lust an atomic must from a blocked gland.
Solitude.
An lonely word of understand.
Time does not heal all wounds.
Not Everything can be forgiven.
Trauma plagues a soul.
Never to be ridden.
29 October 2019.
Marcia Anita Hobbs, 1984.

UNIVERSAL LAW

This delicate assent and decent.
Like tonic,
A hypnotic combination of beauty and danger
mystifying.
A feeling that crumbled the hard exterior to the soul.
Emotionally crippled and intellectually suicidal.
The door opened,
That Gaze.
Core shaken,
A piece of that soul taken,

Filling those eyes.
Electrifying.
A space encompassing hate,
Capture a moment so light,
So Right.
In a world of empty cold social morality,
There is this.
There is unimaginable unbreakable love.
Universal attraction,
A collision of the truest form of what we don't see.
That which we only feel.
So great,
So far,
So fast,
That our decent is so brief.
We dissolve,
To resolve,
Love is the most powerful force on Earth,
In a world where power is nothing of love,
There is us.
A momentous moment,
In a moment generating such sensation,
Such engagements.
Divine.
You and I are here,
Right now,
Right where we are supposed to be.
Despite all this,
There is bliss.
There is US.

Author: Yours Truly, Marcia.

29 September 2018

KNIGHTS

How sincerity is greed,
How lust turns to need.
How fallen stars always shine,
Divine.

Fallen; Rise,
Fallen.

The dew of dawn is all unspoken,
As upon it reveals all of us are Broken.

The sweet whispers of loneliness -broken~men-
30 December 2018,

Marcia Anita Hobbs.

'Write me a poem' he said.

'For you I would write an essay on how the clouds kiss
the sky, and the sun and the moon dance forever in a
deep and distant romance.' I replied.

The Depth Of Divine

Encrusted in this engulfment of superseding infidelity,
Lovers a light among a wave of immorality.

The call of vanity breaks,

Like the blackened sky after a storm,

Engulfing the glorious blue in the sky it hides,

Clouds gliding and sliding across the mirage of day to
night.

A lovers fight unfolded by mother nature.
As you caress my breast,
The clouds and sky coddle in and out of comforting
embrace.
It is when the night slides into day,
And the day slides into the night.
That we see two lovers dancing across the sky,
Occasionally they pass and engage in a spectacular
light display.
Like you and I entwined in the night,
Your body on mine.
Mine on yours,
The sky lit up at the sun and moons crossing.
Like the bedroom that flickers our silhouettes
expressions,
The colours of the extraordinary eclipse.
You and I,
Limbs entwined glimmer as the skins sensations ignite.
Mystical and forever,
The explosion of a thousand kisses all over your body.
This is how the clouds kiss the sky.
2nd February 2020,
Marcia Anita Hobbs.

**Hell and Sunshine,
That's how you taste,
Tantalising. - My Travis xo**

Dirty Secret.

Your my dirty little secret boy,
The way you wear your tie.
How those sweat pants sit,
That bulge on your left thigh.
Your my dirty little secret boy,
When we cuddle up at night.
The taste of every sweet nothing,
You bring me such delight.
Your my dirty little secret boy,
The icing on the cake.
You make my body tingle,
With every move you make.
Your my dirty little secret boy,
My man, my boy, my guy.
Let's stay like this forever,
Together like the stars and the sky.

The following are untitled poetic notions, for me, for you, for someone. Enjoy x

To All that we feel and don't see, see and don't say and say and don't mean.

The Peace in Love and the Greed in Lust. - The Lust Of Love.

That something in your eyes that I could Love for the
rest of time.

50 Times I Cried,
For That One Time You Lied.

And in the absence of a Fear, it is not only ourselves we
find - but life and death themselves. 23/03/16

Do not try and tame the beast within me, for if you
touch the beast, it will devour you.
Love the beast and she will purr like a gleeful child,
touch the beast and he will become wild.

*Always remember that the evil Wants You to dwell on
your mistakes.* – Marcia Anita Hobbs, Lodge 406.

Chapter Eight

‘Justice’

"Certainty is not overruled by doubt".

Justice; noun: the maintenance or administration of what is just especially by the impartial adjustment of conflicting claims or the assignment of merited rewards or punishments.

Justice in Australian Democracy is administered by a judge; a judge of an appellate court or court of last resort (as a supreme court).

The constitution set the guidelines and bounds to which Government can administer law amongst the people. The administration of law by the establishment determinations our rights and in Australia it is supposed to be in accordance with the constitution - rules of law and equity.

Australia was a founding member of the United Nations (UN) administration of the Human Rights Declaration and played a prominent role in the negotiation of the UN Charter in 1945. Australia was also one of eight nations involved in drafting the Universal Declaration of Human Rights.

So, why do governments of Australia ignore this charter and their constitutional obligations to the people when administering law in Australia in modern times.

Here's my take on this.

The Charter was established after World War two when the Nazis were defended by predominantly the United States, Great Britain, the Soviet Union, France, Australia, and New Zealand. These countries fighting Germany and Italy in Europe, the Mediterranean and North Africa, as well as against Japan in south-east Asia and other parts of the Pacific. A battle of Democracy VS Dictatorship where Dictatorship lost – Thank God.

From here Australia took in numerous people from the battlefield of Germany who survived, transported via America to Australia predominantly by the Red Cross organisation. Survivors of these times have sat with me and shared these stories. The most informative stories I have been told about this war was from a survivor named Kathy over 2019 – 2020. She was around ninety-four years old and boldly shared her story of survival as a woman from Poland.

Kathy was taken to a Nazi camp to work at a young age, lucky to not be shot as a polish woman, her German Auntly had taken her in as refuge from Poland and she was from there taken to work the sugar cane fields under Nazi rule. Pushed in the back and yelled at to 'work' in German the word is 'arbeiten'. Kathy told me the graphic tales of her survival many times – hard to forget the tragedy she relived daily in her head. Myself an avid student of history, especially the Nazi era, I was immersed in her words, her hospitality, our friendship,

and her kind nature despite all the adversities she lived including family disfunction.

Kathy expressed that the Red Cross took her and her Nazi soldier husband who claimed to be a polish soldier as the war was lost to America. They were processed by the Americans and sent to Australia, Melbourne, Victoria where there was a large German camp established. The camp was funded by German finances, Kathy was given Germany currency to spend in Australia as well as a German pension. Both Germany and British money were currencies of these times before the currency converted completely to the Australian dollar that we know today. Many people – especially the wealthy of this German camp were gifted Australian land. The people of the German camp built many of the train tracks around Victoria and Sth AUS spanning up to Murray Bridge and although the country was populating with what were called Ten Pound Poms. Ten Pound Poms were British citizens who migrated to Australia and New Zealand after the Second World War. The Government of Australia initiated the Assisted Passage Migration Scheme in 1945, and the Government of New Zealand initiated a similar scheme in 1947.

The country of Australia taking in British migrants at this time was already heavily populating with Germans and Italians aligned with the Nazi regime. The city of Mount Gambier Sth AUS where I grew up, heavily populated with Germans who claimed they were from Poland to avoid the Nazi label gifted much land by the Australian government in this region.

Australia established on British foundations, if you research the alignment British Royalty has with Germany you find many Nazi sympathisers. Charles Edward (Leopold Charles Edward George Albert; 19 July 1884 – 6 March 1954) was a British prince until 1919, the last ruling duke of Saxe-Coburg and Gotha, a state of the German Empire, reigning from 30 July 1900 to 14 November 1918, and later a Nazi politician. The popular Netflix series 'The Crown' which I love! Featuring in its fifth season a small but telling scene when the royal family learned of Mohammed Al Fayed's renovation of the home of the Duke and Duchess of Windsor, which he calls "Villa Windsor." Robert Fellowes, Queen Elizabeth's private secretary, tells the Queen that Fayed has invited her to visit. "It seems there are all manner of valuable possessions at Villa Windsor, which we feel it would be important for the Crown to have back." Among those possessions, Fellowes shares, is "material relating to his wartime stay in neutral Spain and Portugal, where he and the Duchess were frequently in the company of Nazis, who hoped to install him as a possible puppet king."

The government of Australia an establishment of men stemming from this era for over half a century, I personally am not surprised by unconstitutional laws established with a totalitarian agenda. This stated, we are in an era of transparency. The newly established National Anti-Corruption Commission (NACC) with a pathway to create transparency in government. Just justice is on its way to bring back the rights our

Constitution outlines and laws that are constitutional. As long as the NACC is not led nor infiltrated by the dictatorial ways of the past, led by seedy misjudgements and judges to which our current justice system displays.

Chapter Nine

‘Truth VS Lies’

Be careful what lies you tell about me, some dick heads maybe corrected in these books. Defamation is costly. Perjury is a crime punishable by incarceration.

In 2024, it took a statement in a country pub for me to realise there was perjury surrounding my income and OnlyFans. I did not know police were trying to turn a platform I used against them posting mainly images they had shared or imagery of less destruction than they had spread for ten years as a weapon. OnlyFans was certainly not my income and my bank accounts can more than prove that as a Australian citizen the only way to spend money from OnlyFans was to transfer it into your bank account. That stated the proof is easy to put into court that this was police driven perjury to try and blame me for revenge porn circulated by law enforcement (Australian and International naming the CIA) as well as organised crime for over a decade. As if you do run a cover up of sex crimes, including children, disabled, and selling someone (numerous persons) on the dark web silk road. Yet, that is what police did and hoped would get them through using me

as rape bait via STARForce SAPOL, to cover up criminal negligence and to negate the police status SAPOL issued without my knowledge or permission. The extraordinary emergency, reckless endangerment, and perjury I survived for over a decade after STARForce used me as rape bait for two decades is diabolical and I personally think diabolical is an understatement.

The truth is I have been single for a decade spanning 2014 – 2024 after two life-threatening domestic violence relationships. I was forced into a relationship in 2018, which I did not allow to happen again, despite the efforts of two rapist men. Numerous men claiming we were in a relationship just from hanging around me during this ten-year period. In 2024, I engaged one relationship with an American citizen named Eric – who I should have just left as a one-night stand to be honest. More heart ache than it was worth.

I was single throughout the entire year of 2019, raped twice by two persons known to SAPOL and STARForce. One of these rapists, prior to sexual intercourse rape tried to redeem himself as my friend by taking me on a trip he was going on at Easter. I reluctantly went on this trip – kind of forced as I was renting a room in his property and he sold the house without securing another property. Sold to a felon associated with SAPOL Hells Angel (HA) Graham Daniel Young who is not really a HA. Staying in hotels before securing accommodation paedophile and rapist

Luke Ryan booked Riverview Rise Retreats as accommodation to stay. I had suffered much sexual violence by this stage used as rape bait by police forces the trip was promised to be a Rest and Recovery (R&R) trip at Easter 2019. After the property I was renting was sold while SAPOL recklessly endangered my life – STARForce trying to cover up over a decade of using my life. This trip was a plot of further perjury, Luke Ryan a friend of my brother Cheyne Michael Hobbs (DOB9MAY1985) involved with the perjury. While police forces across Australia plotted to try and make me homeless. Riverview Rise Retreats is located at 10182 Hunter Road, Mannum SA 5238. The spa bath was disgusting and after I had filled and cleaned it, the accommodation slipped a dirty filter into the system which filled the bath with skin particles. The owner at this time claimed to be associated with the Australian Defence Force via their son and are guilty of perjury and well as violating health and safety regulations. The owner claimed myself and the paedophile rapist were on a date and the paedophile rapist claimed this trip was an Easter present for him. Not R&R as well as an opportunity for myself to utilise a beautiful back drop to market my brand as I do wherever I am located.

The truth of the team of law enforcement who is most responsible for criminal negligence over my life prior to 2014. STARForce members are honestly the main team engaged in criminal negligence events surrounding myself stemming from Kurt Slaven raping

myself in 2001 as a minor. Teams of STARForce members using myself as rape bait over nearly two decades, the Australian Federal Police (AFP) in 2015 witnessing these out-of-control operations from 2014 – 2024 are also guilty of severe criminal negligence in a sex crimes cover up.

Peregrine Corporation employ many Catholics and are heavily associated with Sth AUS Hells Angels operations.

I have five laptops. SAPOL has three of them.

In approximately 2004 or 2005 I wrote to the Dr Phil show expressing my concern for my dads drinking. Dr. Phil is an American talk show created by Oprah Winfrey and the host Phil McGraw. I love Oprah, I used to love the Dr.Phil show too, I do not watch it anymore really. That stated they research and investigate stories for this show both in America and Internationally. The show never responded, but I love my dad so much I thought the show would help him before there was an excuse to drown him with alcohol either self-inflicted or maliciously.

I love to have a shower every day, but do not wash my hair every day unless I have used hairspray.

I have not been a coffee drinker all of my life. Just since 2017. I have never been a cappuccino drinker and don't usually order such drinks in cafes. My history with cafes consists of orders usually purchasing of Green Tea, Mocha or Chai Latte (half strength if it's a dirty chai).

I have worked for an employer every year of my life since high school except over the five years I have authored books where I only worked my brand Barbwire Noose really – with the exception of 2022 (end of 2021) where I bar attended at the Alice Springs Casino saving to take brand Barbwire Noose to attend New York Fashion Week. During these five years I authored half a dozen books and obtained three diplomas.

I like my boyfriends fit, not fat. I have never had a boyfriend that was fat when we started our relationship and never will. I believe the level of care you invest in yourself provides a basis to the level of care you would provide to another. If you are too lazy to look after yourself it is highly likely you will be too lazy to look after me to.

I talk a lot but am very happy to listen also. If someone says I just talked to no end and they didn't get a word in that's bullshit. After a few hours it is guaranteed that I would have got sick of talking to you, at you or to myself so you'll always definitely get a word in.

Am I a sexual deviate. I'd like to say this is none of your business, but apparently it has been gossip for years so. The short answer is yes, nothing weird or gross. I do not like old men, animals, or children. But I will have private fun, with probably less limits than most.

I do not like country music, nor old fashion music for that matter. The eighties have some cool ass tunes, but I'm a nineties kid with a passion for alternative metal.

Chapter Ten 'Freemasonry'

"A man cannot lay down the right of resisting them that assault him by force, to take away his life." - [Thomas Hobbes](#), Leviathan

In Freemasonry, an inquisitive mind is a necessary prerequisite. The pursuit of education is of the utmost importance. Not necessarily a formal education but lifelong learning for the purpose of serving Humanity better.

Philosophy students are engaged in asking, answering, evaluating, and reasoning about the nature of reality. Science is an education in the facts and methods of the Universe. A systematic endeavour that builds and organizes knowledge in the form of testable explanations and predictions about natural phenomena. The perfection of Humanity is compiling several invaluable esoteric, scientific, and philosophical educational resources, then applying them to life.

Immortality, in philosophy and religion, the indefinite continuation of the mental, spiritual, or physical existence of individual human beings. In many

philosophical and religious traditions, immortality is specifically conceived as the continued existence of an immaterial soul or mind beyond the physical death of the body.

The earlier anthropologists, such as Sir Edward Burnett Tylor and Sir James George Frazer, assembled convincing evidence that the belief in a future life was widespread in the regions of primitive culture. Among most peoples the belief has continued through the centuries. But the nature of future existence has been conceived in very different ways. As Tylor showed, in the earliest known times there was little, often no, ethical relation between conduct on earth and the life beyond. Morris Jastrow wrote of “the almost complete absence of all ethical considerations in connection with the dead” in ancient Babylonia and Assyria. (Source: Britannica, 2024).

At its core, Freemasonry is about the nature of truth. Leadership skills are developed by Freemasons in their search for truth.

Freemasons are supposed to strive for truth, both in their views of themselves and in their dealings with others. Masonry requires high moral standards and its members and non-members should endeavour to uphold this principle in their public and private lives. Freemasonry, in its broadest and most comprehensive sense, is a system of morality and social ethics, a primitive religion and a philosophy of life incorporating a broad humanitarianism, without a creed, being of no sect but finding truth in all.

Honesty is of utmost importance in Freemasonry - "steadfast, trusty, and true," and "not to take bribes." Policy of Truth is the third single off Depeche Mode's seminal album, Violator. It was released on May 7, 1990. It reached number 15 on Billboard's US Hot 100, and number 1 on the US Alternative Airplay charts. The song is about living with the consequences of being untruthful. The song begins with the below lyrics:

*You had something to hide
Should have hidden it, shouldn't you?
Now you're not satisfied
With what you're being put through
It's just time to pay the price
For not listening to advice
And deciding in your youth
On the policy of truth
It is a science which is engaged in the search of Divine
Truth, and which employs symbolism as its method of
instruction.*

In The Newly-Made Mason, H. L. Haywood refers to the obligations placed upon the new Mason: *"I hereby solemnly and sincerely promise and swear that as a beginning Craftsman in the Masonry of the mind and as a Newly-Made Mason I will not permit myself to be led into making hasty conclusions. I promise and swear that I will not listen to those who are not competent to teach me. There will be nothing binding on me except the truth. If there be those who say one thing and if there be others who say the opposite thing, I will*

consider that it is Freemasonry itself which finally is to decide between them."

I am an unsworn Second-Degree Freemason, with knowledge in the Third degree extending to the thirty-third degree. The Second Degree, Fellow Craft is the degree before Master Mason - Third Degree. I have completed my Entered Apprentice First Degree and was set to be sworn (initiated) into the second degree before resigning in 2019 after witnessing Freemasons protect paedophile offending.

I became an Entered Apprentice having been Initiated on 25th August 2015 and resigned on 15th August 2019.

We are taught in the First Degree that the tenets of a Mason's profession are brotherly love, relief and truth. That the "Truth is a divine attribute, and the foundation of every virtue. To be good and true is the first lesson we are taught in Masonry. Yet I witnessed the opposite within my lodge and law enforcement Freemasonry. I am a Freemason by DNA, living on the square. I do not need a lodge to define my place as a freemason, as long as I am honest, moral and transparent when it matters and of matters. Regulating my conduct, influenced by the principle of truth, not hypocrisy and deceit. Sincerity and plain dealings distinguish a freemason. On the 22 May 2024, I moved formally to rejoin the lodge, making it clear that my membership to lodge was not based on my Freemason status but on the basis that Kurt Slaven was not an accepted Freemason. After short conversation, 22 May 2024, I began the process to rejoin.

Here are the communications thus far of that process:

Dear Marcia,

My apologies... the form you submitted said that you were based in South Australia and as Secretary I was aware that you were not a current financial member so assumed you were an interested member of the public. I have now gone back to our records and see that you were an Entered Apprentice having been Initiated on 25th August 2015 and that you resigned on 15th August 2019. Having resigned means that you are no longer a member and would need to re-join to become so.

I am a recent convert from the Male Craft to Le Droit Humain and even more recent to the role of Secretary so am unaware of the matter you discuss but would say that within the male Craft Freemasonry of my prior experience there have been members with checkered pasts who have found redemption within that jurisdiction and are now men of strong and good character working hard to balance the scales as it were. All of us normally deserve second chances. That said, I respect an individual's right to decide what feels right and what doesn't regarding their membership. Please let me know if you wish to rejoin and we will go through the usual processes according to the General Regulations.

Hearty good wishes,

SENDER: Steve Brown, III:..Bro - Wed, May 22,
2:51 PM (to Me)

'Unless your calling Kurt Slaven a freemason???'

I refuse to rejoin then and you watch me bring this down on Freemasonry, not just police like Thomas Hobbes raging on UGLY lodge back in the day.’ –
SENDER: (me) May 22, 2024, 3:41 PM (to Steve).

Dear Marcia,

I have now had a chance to have a very quick look at some of the work you sent me and also to check through our records.

I can confirm that Slaven, Roche and Kyriacou are not and have never been members of our Order. Not being aligned with the male Craft I cannot speak to their status within that jurisdiction.

On matters that your raise...

The Middle Chamber was established by members of the male Craft but was open to participation by members of the public and on that basis members of our Order did attend and present on occasion. Middle Chamber ended a few years ago. Our Order has established a similar forum that is open to the public called Societas Lux et Sapientia (SLS). It is ‘open source’ in that we do not curate the program - anyone can attend, anyone can present.

SLS is an open, informal group that meets to discuss a broad range of topics including - but not limited to - those of a philosophical, educational, esoteric, and practical nature. Central to our activity is the promotion of free discussion and thinking through the provision of interesting and challenging speakers. The program is not curated other than the allocation of dates in the annual calendar.

While male Craft Freemasons attend and occasionally present, so do members of the public with no connection to Freemasonry of any kind. Presenters are, however, predominantly from our Order.

I attended and presented at Middle Chamber when a member of the male Craft and that is how I found (and later joined) Le Droit Humain. Middle Chamber ended not long after I first found it. In all my dealings with Freemasonry I have never encountered the three men you speak of either at Middle Chamber or at a male Craft lodge meeting. None of them have ever attended a SLS meeting.

Reading your chapter on Freemasonry and the reason you resigned from our Lodge I can only say that my experience has always been a nurturing and positive one and that the social activity (at the suppers, SLS, etc...) has been welcoming and friendly at all times. That said, the membership of the Lodge continually changes as new members enter and others leave so I cannot comment on the composition of the Lodge between 2015 when you joined and 2019 when you resigned. The current membership spans a range of cultural backgrounds (English, Australian, Italian, Persian, Indian, Mexican, etc...) and a broad range of beliefs from the very esoteric to the very rationalist, from the very progressive to the more conservative. With such a broad palette of views and members it is hard to define our Lodge as having a dogma or single approach to anything, really. The ritual is the only consistent thread.

I am empathetic to what you have experienced but cannot, of course, say "I know exactly how you feel" as is so often blithely used in such circumstances. I hope that the legal matters that you mention are resolved as quickly as possible to enable you to free yourself of that burden.

Hearty good wishes,

SENDER: Steve Brown

Ill:..Bro Steve Brown 310

I understand it is alot to digest.

I hope no one can truly understand the abhorrent experiences I have had. The legal matters with Royal Commission and AFP, they will certainly conclude.

As for the male craft, I understand UGLY

acknowledged female freemasonry a few years back, so I'll kindly correct you that we are acknowledged by the male craft at this stage. Though some males like to keep there dealings with prostitutes away from their wives - the fact is broadly known and certainly not hidden at this time.

Lorraine Booth was part of my initiation. She is a 33rd degree and her husband is involved with Grand Lodge which seen her behaviour off putting at times. Adrienne was wonderful and is a great freemason of Co-Freemasonry.

The ideal direction for freemasonry is unity between the male and Co-Freemasonry craft during this century. Much respect has been lost throughout the globe for freemasons due to the boys club notions which protect seedy ongoing.

What is required to renew membership as I was set to be initiated to fellow craft and have the ritual notes preparing me for this initiation?

SENDER: (me) May 23, 2024, 11:51 AM (to Steve).

NOTE: The 23MAY2024, a Full Moon in history. Mine, nor your spirit in good faith shall be ignored. "So mote it be"

‘At the heart of Freemasonry, is the natural quest for Truth. Freemasonry is a means to self- realisation, universal-realisation, and for those so inclined, divine-realisation. Mysticism is the belief and practice that we can know the ALL through the inward way (reflection, contemplation, meditation, prayer etc.). Whilst not all Freemasons are religious or spiritual in their practice, the system itself tends to encourage the pursuit of the ultimate Truth by turning our consciousness inwardly. More will be said of this in future degrees.’ - (Source: International Order of

**Freemasonry for Men and Women; LE DROIT
HUMAIN Sydney Lodge No. 404).**

Extract: [Thomas Hobbes](#), Leviathan - For the infallibility of his judgement concerning manners, he bringeth one text, which is that of John, 16. 13, “When the Spirit of truth is come, he will lead you into all truth”: where, saith he, by all truth is meant, at least, all truth necessary to salvation.

Chapter Eleven

‘Opinions and Random Shit’

Opinions are like assholes, everyone's got one - these are mine. Plus, Anything but Ordinary random shit.

Always fill a hotel spa with hot water and soap before you use it. Run all the jets and drain the bath. The build up of skin particles can make you sick. A severe lacking in accommodation hygiene is illegal, paid accommodation has health and safety legalities they must uphold. Do not hesitate to complain if this is not the case.

Push ups are a highly underrated exercise you can engage in anywhere, anytime.

Diamonds are a girl's best friend; well, they are my best friend. Be a good boyfriend and get your girlfriend a diamond.

I love butterflies and will literally walk with them if I can. They are so beautiful.

In my opinion the legal drinking age in Australia should be twenty-one and the blood alcohol limit in Australia should be .08% like in the United States

I do not believe children should be voting in elections at sixteen years of age. Influenced by their family and peers instead of real facts and outside of hormonal peer pressures. Leave the voting age to adults, if anything, raise it to twenty-one.

Home-schooling VS traditional schooling, well I have friends who were homeschooled and they are just as bright as traditional school goes the only difference was their need to fit in and the social interactions that were had seemed kind of awkward. So, I think if you are going to home school your child you need to have them play sports, get out and socialise. Take holidays and interact with others.

Recently (2024) the SA Government announced that children should be fifteen years to be on social media and I absolutely agree. Children should not be burdened with adult issues and they are overwhelmed enough at school with peer pressure and bullying. Get off the kids and let them be kids. It is important that children have a

safe place at home to be, free from social pressure, school bullying and the bombardment of sex that plagues the internet.

Some roads across Australia are so shit. The government needs to be held accountable for taking out hard earned tax dollars and snorting it up against the wall with their high salaries and wasteful ways. If you hit a pothole and it damages you or your car, sue. That will improve the roads, works in Sth AUS.

Studying with someone who is lazy or not on your level sucks and I think teachers should recognise this. As an acute and able student, I prefer to study alone. It really bothers me to hear peoples' excuses saying they are too busy or waiting for you to do all the work. Catering for our own busy lives is hard enough, then to battle with someone else's timetable to, especially when you're doing all the study work sucks.

Artificial Intelligence (AI) technology right now is so out-of-control and unethical. It is a newly developing space that I believe governments are deliberately floundering in. Overlooking policies and legislation for AI to exploit new tech options for law enforcement and defence force systems which leads to compromised societies and political gains.

I think public transport costs should be capped and those who are in poverty demographics should be able to travel on public transport basically for free.

Cash should NEVER be abolished.

Your body, your choice. Legislation should protect us into the future from compulsory violations to our bodies by government or corporations. Get the fuck off us.

A controversial topic is lab testing on animals. Rats and rabbits breed at an astronomical rate, not saying animal testing is ethical – clearly it is not. It is scientific and like it or not, vegan or not you benefit from sciences, and have for thousands of years. Who are you really to set the world back by saying that animals that are baited everyday should not benefit the human race.

I think it is important for workplaces to be diverse and inclusive but I do not feel corporations should be incentivised to do this. The incentive scheme leaves people out and lowers not only workplace standards but workplace morals due to the government funded diversity being favoured over the everyday hard worker.

Everyone's shit stinks. Keep that in mind everyday in life. You have at least one thing in common with someone you hate and that is that you and them both have stinky shit.

ANYTHING BUT ORDINARY – JUDGMENT AND PERCEPTION HAVE NO VALUE HERE.

BOOK No. 5

LIFE AS I KNOW IT

Forty ‘odd’ years of living life to the maximum I possibly could. This is what I know, what I have learned and probably what I do not know too.

PSYCHOLOGICAL WARFARE

‘Psychological warfare, the use of propaganda against an enemy, supported by such military, economic, or political measures as may be required. Such propaganda is generally intended to demoralize the enemy, to break his will to fight or resist, and sometimes to render him favourably disposed to one’s position. Propaganda is also used to strengthen the resolve of allies or resistance fighters. The twisting of personality and the manipulation of beliefs in prisoners of war by brainwashing and related techniques can also be regarded as a form of psychological warfare.’ – (Britannica, 2024).

ROTATIONS OF THE SUN

The Sun rotates on its axis once approximately every twenty-eight days. A female menstruation cycle is approximately the same. The Earth takes an average of three-hundred and sixty-five days to rotate around the sun.

PIECES OF ME

Things you may know or may not know about me.

ROYALTY

“Civil society is a concept of peace between the peoples, authorities, and nations. Governments will elude Any responsibility over a society they are ultimately allowed to flounder.” – Marcia BNoose (Princess Marcia Anita HOBBS India/Australia), Le Droit Humain.

LAW

Legal Maxims Matter.

POETRY

Poems by yours truly.

THE FUNDAMENTALS OF LIFE

Meaningful origin, actions, and destinations.

TRUTH VS LIES

Be careful what lies you tell about me, some dick heads maybe corrected in these books. Defamation is costly.

FREEMASONRY

"There is no such thing as perpetual tranquillity of mind while we live here; because life itself is but motion, and can never be without desire, nor without fear, no more than without sense." - Thomas Hobbes, Leviathan

OPINIONS AND RANDOM SH*T

Opinions are like assholes, everyone's got one - these are mine. Plus, Anything but Ordinary random sh*t.

An individual is not subject to any civil, criminal or administrative liability for making a public interest disclosure.
It is an offence to take a reprisal, or to threaten to take a reprisal, against a person because of a public interest disclosure (including a proposed or a suspected public interest disclosure).

The Federal Court or Federal Circuit Court may make orders for civil remedies (including compensation, injunctions and reinstatement of employment) if a reprisal is taken against a person because of a public interest disclosure (including a proposed or a suspected public interest disclosure).

It is an offence to disclose the identity of an individual who makes a public interest disclosure.

Public Interest Disclosure Act 2013
No. 133, 2013

(Part 2; Subdivision A—Immunity from liability)
