Autobiography of Marcia Anita Hobbs

SYNOPSIS

Human Rights Matter. I am, the misuse and abuse of association laws for police and political gain. I am, The Price Of Unlawful Enforcement.

NEVER being part of a gang, I was NOT associated with Any gangs or gang behavior, yet through the police force I was exploited for years through the law of association. Learning on the 'Road To Resolution' (Conclusion Part 2 UGLY HEROS) the Australian police force had been watching myself, a rape victim of a police officer as a teenage, endure years of gangs and police gang associated sexual crimes being used as quote 'rape bait'. Sex crimes committed under police investigations and government's knowledge. The daughter of 2 professional parents who opened the Hungry Jack's Australia arm of American Burger King Fast Food Family Restaurants across Regional South Australia. I grew

up under strict and isolated parenting on a farm with emu, cattle, my own horse, dogs and an ex menagerie that developed my philanthropic passion and love for animal welfare.

A True Crime Biography written for resolution to the POLICE VS Kurt Slaven statement. Release was delayed by the hideous and desperate cover up of the sexual assault crime against a minor. A cover up orchestrated to the highest authorities of Police Commissioner's, Integrity Commission and Governance. This 2 book publication finalised in 2020 was submitted to the Mount Gambier Magistrates Courts as evidence against SAPOL's proceedings being an abuse of process if "they [the proceedings] are seriously or unfairly burdensome, prejudicial or damaging, or productive of serious and unjustified trouble and harassment." Furthermore the courts - "the inherent power...to prevent misuse of its procedure in a way which, although not inconsistent with the literal application of its procedural rules, would nevertheless be manifestly unfair to a party to a litigation before it, or would otherwise bring the administration of justice into disrepute among right-thinking people".

TRUE CRIME BIOGRAPHY

An Autobiography reflecting Kurt Slavens irrefutable guilt. Sex offending against myself, a 16 year old minor, a mid 30's SAPOL detective and the catastrophic cover up plot within SAPOL. Guilt obtained with much evidence including admissions to fellow officers of sexual engagement, falsified documentation, police involvement in criminal activity, malpractice and corrupt activities surrounding the investigation. Revelations conclusively determined December 2019. The Ugly Heros Autobiography reproof further unraveling the Human Rights violations, corrupt actions of the Anti Corruption commissions and the determination of a need for a Royal Commission into SAPOL.

I hope you are gripped, touched, moved and uplifted by my soul bearing Autobiography. Acknowledging the tragic loss of Mr Gordon Hamm and the revelations of a long term compromised Australian police force.
